**Our Feedback**

- Really like the design
- Did a great job of consistently applying the theme and the same kinds of rules
- Appreciate the use of accordions for information that isn't super important
  - Hiding the text heavy executive board bios in the accordions
  - Accordion button in natural and correct place before the text
- Like the use of color
  - Using color to help anchor people and understand where they are and where they are going
- Love the color blocking to split up the different sections
- Like the clean look of it
- Like the navigation
- Visuals on events section could be better
- Would like to see more text on the events page that gives a brief description of the event
  - Were satisfied knowing that more description lines could be added to the accordions if using the premium version
- Like the inclusion of the search functionality
- Like the alternating photo/text sides for the layout
- Selected color and typography works well and is quite pleasing to the eyes

**General Feedback**

- Appreciated the dark mode consideration
- Appreciated the mention of security vulnerabilities with plugins
- Like the incorporation of the community page (similar to our blog page)
- Do not want users to have the ability to comment on job postings because they do not want to have to manage the comments or questions about jobs
- Like the countdown to the next event on the events page
- Like simple designs

- Find executive board bios very text heavy
- Unsure about the potential security issues with payments
- Like the inclusion of the social media icons in the header
